The Healthiest Water in the World with 1.8+ ppm H₂

Turn Your Tap Into The Strongest Natural Antioxidants

A Healthier You With Tyent Water

Tyent Water contains the highest concentration of molecular hydrogen **H₂** in the water ionizers industry. It comes with a molecular hydrogen booster that can produce up to 1.8+ ppm of hydrogen molecules or equivalent to 360% of the therapeutic concentration dose. But why is molecular hydrogen **H₂** important?

Molecular Hydrogen

More than 1000 clinical studies have emphasized the importance of the molecular hydrogen in elevating and improving all types of diseases. Latest clinical studies in October 2021, showed that it is a promising adjunctive strategy for the treatment of Covid-19. In another clinical study in October 2020 shows that molecular hydrogen might reduce the destructive cytokine storm and lung injury caused by SARS-CoV-2 during Covid-19.

What are the Health Benefits of Alkaline Water?

These are the few health benefits of Alkaline Hydrogen Water

- Increases cell metabolism
- Increases energy
- Anti-inflammatory
- Anti-obesity
- Anti-aging effects
- More stamina while exercising
- Better performance mentally and physically
- Improves mood
- Reduces anxiety
- Improves skin complexions
- Recovers muscle fatigue faster
- Soothing acid reflux and reducing heartburn
- Rehydrates body quickly after working out
- Increases immune system efficiency

6 WAYS TYENT WATER HELPS YOU STAY HEALTHY

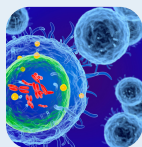

Glowing and Radiant Skin

Achieve a clearer and healthier complexion when your skin is hydrated with Tyent Water.

Promotes weight loss

Detox and release excess fat from your body when regularly drinking Tyent Alkaline Water.
