

# A Healthier You With Tyent Water

In the previous section, we mentioned that Tyent water has a molecular hydrogen booster that can produce the highest concentration of molecular hydrogen  $H_2$  up to 1.8+ ppm or equivalent to **360%** therapeutic concentration dose.

Most uses of the alkaline water is for internal and is rich in hydrogen molecule  $H_2$ , which is beneficial for your overall health. On the other side, purified water is for taking medication and preparing your baby formula. Lastly, the acid water ranges from pH 1.7 - 6.0 is for external uses such as cleaning your kitchen, bathroom, and personal hygiene.

## 8 Different Types of Tyent Water Ionizer Produces

Alkaline Water is mainly used for internal purposes such as drinking water and removing sprayed chemicals from your veggies and fruits, ranging from 8.5 - 12.5 pH. While Tyent Acid Water is used for external purposes such as disinfection and ranges from 1.7 - 6.0 pH.

### TYENT WATER ACID USES

Purified Water

Beauty Water

Cleaning Water

Extreme Water

H<sub>2</sub>O Clean

2.5 <sup>L</sup>/<sub>min</sub> | 1.50 <sup>l</sup>

## PURIFIED WATER

pH 7.2

**Suitable for Baby Formula, Baby Food and Taking Medication**

### Baby Formula

Purified Tyent Water stands out as the first choice for preparing your baby formula and baby food as it gives your baby safer, cleaner and healthier water. These include no harmful elements, and you don't need to boil them before use.

### Baby Food

As with the Baby Formula, Baby Food whether it is Homemade or you buy, should only be mixed with Purified Water. Purified Water can be also used with Natural Health Supplements approved by your Family Doctor such as Infants Probiotics Powder etc.

### Medication

Medicine should only be taken with Purified Water, as Alkaline Water increases the drug's absorption by sixfold, causing symptoms of overdosing. Also, stay away from drinking Alkaline water one hour before and one hour after taking medicine. When taking medication, swallow it along with purified water.

Tyent Water**

Acidic 1

2.5 L<sub>min</sub> | 1.50 l

## BEAUTY WATER PH 5.5

**Suitable for Washing Face, Hair Care, and Pet Care**

### Washing your face

Beauty water has the same pH as your skin, which helps keep your skin clean and radiant. It also helps remove dirt and oil in your face without using harsh chemicals.

### Hair Care

Washing and rinsing your hair with beauty water will help prevent fungal and bacterial growth on your scalp. It will reduce dandruff and keep the cuticles closed and healthy.

### Pet care

Have your pet's fur softer and shinier when you wash or bath them using beauty water.
